# Business acumen and technology expertise - **unified.**

When you partner with Cloud Server Techs you are choosing to outsource your IT and communication needs to a company that is committed to keeping your networks secure, dramatically reducing the amount of downtime you face, and helping you become more streamlined and efficient - all through a better use of technology.

## Managed Services

Cloud Server Techs are pleased to offer our business clients hassle-free Managed Services. Stop stressing out about downtime and technology troubles, and leave the management, monitoring and maintenance of your IT to our experienced technicians instead.

## IT Consulting

Identifying exactly what technology you need to run your business can be a daunting task. However, the good news is that Cloud Server Techs can combine IT expertise and business acumen to develop technology solutions that help you face your business's challenges.

## Cloud Services

Moving your data to the cloud frees you from the physical aspects of IT - it removes the need for servers, as well as worries about their management and maintenance. Cloud Server Techs makes it easy, delivering what you need over the Internet on a pay-as-you-go basis.

## Backup and Disaster Recovery

Backup and Disaster Recovery Solutions from Cloud Server Techs ensure that your data is protected and preserved, and that it is readily available so you can get back up and running as quickly as possible after suffering a catastrophe.

## Network Security

Our team of experts can design and implement optimized networks - and then keep a watchful eye on your systems 24 hours a day, 7 days a week. Network Security services from Cloud Server Techs ensure your IT is safe, secure, and always performing at its peak.

## VoIP Solutions

To stay ahead of the competition, you need access to cutting-edge communication technology. Cloud Server Techs' VoIP solutions give your business the advanced communication systems used by larger companies - but without the high costs or complex setup.

## We're here to improve your IT outlook!

Since its founding in 2009, Cloud Server Techs has become the most trusted IT advisor serving small and medium-sized businesses throughout Hertford. Our prestigious clients include banks, insurance firms, manufacturers, townships and cities; all organizations that depend on a high level of security and compliance to allow them to operate to the very best of their abilities.

IF YOU WOULD LIKE TO EXPERIENCE  
A MORE STREAMLINED AND  
PRODUCTIVE WAY OF WORKING
